First Report of Injury (FROI) (page 5)

By certifying a claim the employer is stating that they are in agreement that the facts reported are correct and valid to the best of their knowledge. Certification does not mean that BWC will grant the allowance of a claim, just as rejection does not mean that BWC will deny a claim. BWC will conduct an investigation and determine whether the claim should be allowed or denied, regardless of the employer certification.

If an employer does not agree with the allowance of a claim they should check off the box marked "rejection." Consult your third party administrator about certifying or rejecting claims.

Accident Analysis Forms (Optional) (page 6-7)

Accident investigations determine how and why these failures occur. By using the information gained through an investigation, a similar or perhaps more disastrous accident may be prevented. Conduct accident investigations with accident prevention in mind.

Pharmacy Benefits Program

Unless a BWC Claim number has been issued the injured worker will need to pay out of pocket for their prescription and get reimbursement from the BWC. Once a claim number has been generated the pharmacy will bill the BWC for prescriptions. Inquiries for pharmacy benefits should be directed to 877-543-6446. To obtain a claim number immediately you can call the claim into Genex or file online at www.bwc.ohio.gov.

Job Description

Send a job description to the doctor with your injured worker. This allows the physician to better determine the job functions of the injured worker and assist them in returning to work with restrictions if needed.
